

Multiplication Table

Record the products.

x	1	2	3	4	5	6	7	8	9	10
1										
2										
3										
4										
5										
6										
7										
8										
9										
10										

Color the boxes.

- ▶ When both factors are the same, the product is called a **square number**. Color the square numbers red.
- ▶ Multiples of five end in the numbers: _____ and _____. Color multiples of 5 blue.

Talk about it.

- ▶ Which product or products occur most frequently in your table?
- ▶ Are there more odd products or even products in your table? Why?
